The Ultimate French Press Technique

by James Hoffmann

9-11m

Grinder notes:

Timemore C2 Max, 21 clicks

Turn lid to open position, Plunger down till surface,

Notes

- •Use between 15 to 17gm of coffee for 150gm water. Start with 16gm.
- •Don't grind super-coarse. Grind medium.
- •Plunger should be pushed down only till the surface of the water.
- •When pouring out to a cup, minimize handling the French Press to avoid stirring up any grinds at the bottom.
